

SBR064 System Introduction

- 1 SBR064 consists of 2 battery modules and 1 empty module.

Battery Module ×2 (33 kg each)

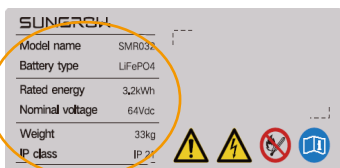

Empty Module (8.2 kg)

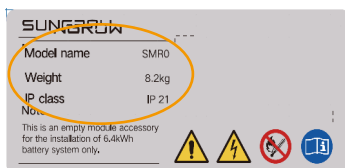

Battery Module: Each battery module has a rated voltage of 64 V and a rated power of 3.2 kWh.

Empty Module: It looks the same as the battery module, but there is no cell inside. It is used to support the top cover.

- 2 Module Label:

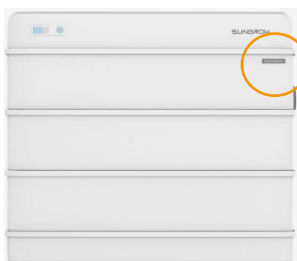

Battery Module

Empty Module

- NOTICE:** 1.After installing the battery, make sure to fix its backplate to the wall. Otherwise, the battery may tip over.
2.Labels are provided to distinguish empty modulels and battery modules. Paste the label on the outside of the empty module during installation.

- 3 The empty module can be placed on any of the upper, middle, or lower layers.
